

Scout Logistics teams up with The Bridle Bash Foundation to make “wishes come true” this holiday season.

As always, Scout Logistics Corporation, based in Toronto, Ontario, Canada is working hard to facilitate the freight movements of just-in-time transportation for perishable, non-perishable and fragile freight by providing customers with tailored freight solutions from **Source-to-Door**.

Scout is also heavily involved with fundraising on behalf of the Bridle Bash Charity Foundation. With over 5 million dollars raised to date, our affiliation with the Bridle Bash Foundation and the amazing work they do is something we are extremely proud of.

NOT ANOTHER RUBBER CHICKEN DINNER

This holiday season, Scout Logistics has once again teamed up with the Bridle Bash Foundation to help local charities by raising funds through the creation and distribution of the "*Not Another Rubber Chicken Dinner*" cook book!

The book itself contains one-of-a-kind recipes from supporters of the Bridle Bash Foundation, Scout team members, friends, family members, Make-A-Wish families and children. In addition, the cook book contains incredible submissions from top restaurants, chefs and specialty gourmets. Proceeds from the book will be directed towards the Bridle Bash Foundation's "Wishing Well" in conjunction with the Make-A-Wish Foundation. The Wishing Well program grants wishes for children with life threatening medical conditions. This year the foundation, with support from Scout, is well on track to making five wishes come true for special children and their families.

So grab yourself a copy, cook great food and make a real difference! We look forward to hearing which of the recipes you enjoy the most!

More information regarding the Bridle Bash Foundation, the amazing work they have done to date and where you can find an exclusive copy of the "Not Another Rubber Chicken Dinner" cook book can be found at www.bridlebash.org
